Goeins-Williams Associates, Inc.

What is EPIC?

EPIC (Electronic Profile Information Center) is an easy to use, virtual warehouse that allows you to effectively manage the access, completion, and viewing of Inscape Profiles through the Internet.

How does EPIC Benefit You?

- EPIC saves you time and money!
- Instead of spending 30-45 minutes completing a profile in a training session, employees can complete assessments online in advance, ensuring that every minute of training time is used to its full advantage.
- You can send online profiles to anyone in the world via email, making the platform ideal for the needs of multi-location businesses.

"EPIC puts the power and control of providing solutions into your hands. You can brand your organization, access the system 24/7, and differentiate yourself as provider of meaningful training versus a one day fix it session."

Fortune 500 Company

How does EPIC work?

- You have complete control of the online system!
- Since it's web based, you have access to your data from any PC connected to the Internet.
- An internal individual is responsible for the administration of the profiles.
- The internal administrator has the ability to generate reports at any time.

How does EPIC work?

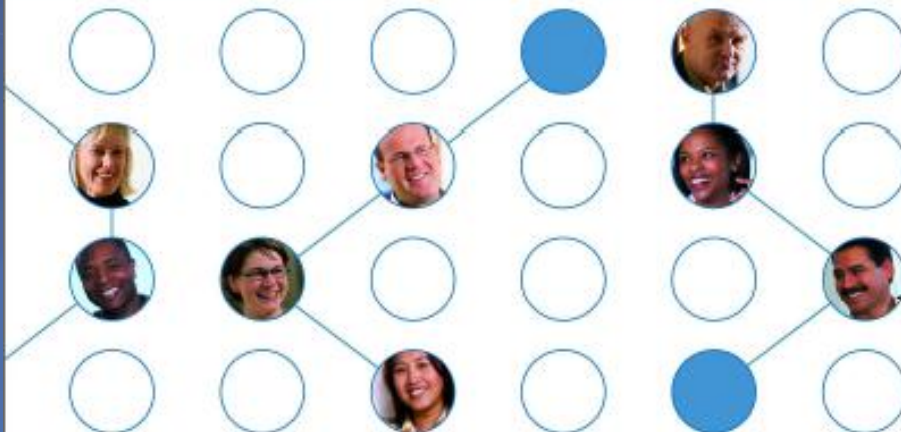

- EPIC offers reports and features not available in paper profiles through a variety of auxiliary features, ranging from composite group results to overviews of a team's interpersonal relationships.
- As teams change, new group reports can be generated from existing data, adding new understanding without requiring more training time.

Key Features of EPIC

- Deliver assessments across the room or around the world from your computer
- Control when the respondent receives the completed profile
- Display your company information and logo on the cover of the report and during the on-line response session
- Receive email notification when a respondent completes an assessment

Key Features of EPIC

- Personalize the email notes that EPIC sends to the respondent
- Generate reports from online responses or by entering tally box scores
- Easily build comparison reports from content stored in EPIC
